MSB Registration Status Information

Date: 10/20/2020

The inclusion of a business on the MSB Registrant Search Web page is not a recommendation, certification of legitimacy, or endorsement of the business by any government agency.

The MSB Registrant Search Web page, which is updated on a weekly basis, contains entities that have registered as Money Services Businesses (MSBs) pursuant to the Bank Secrecy Act (BSA) regulations at 31 CFR 1022.380(a)-(f), administered by the Financial Crimes Enforcement Network (FinCEN).

Information contained on this site has been provided by the MSB registrant. FinCEN does not verify information submitted by the MSB. Information provided on this site reflects only what was provided directly to FinCEN. If an error or incomplete information is detected on this site, the registrant should follow the appropriate instructions for correcting a Registration of Money Services Business (RMSB) form.

MSB Registration Number: 31000176255935

Registration Type: Initial Registration

Legal Name: Globalytics Research System Enterprise Limited

DBA Name:

Street Address: 1099 18th St Suite 2900

City: Denver

State: COLORADO

Zip: 80202

MSB Activities:

Check casher (Including traveler's and money orders), Dealer in foreign exchange, Money transmitter

States of MSB Activities:

Alabama, Alaska, American Samoa, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District Of Columbia, Federated States Of Micronesia, Florida, Georgia, Guam, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Marshall Islands, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Northern Mariana Islands, Ohio, Oklahoma, Oregon, Palau, Pennsylvania, Puerto Rico, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virgin Islands, US, Virginia, Washington, West Virginia, Wisconsin, Wyoming

All States & Territories & Foreign Flag: All States/Territories

Number of Branches:

Authorized Signature Date: 10/09/2020

Received Date: 10/09/2020

MONEY SERVICES BUSINESS (MSB) CERTIFICATION

Money Services Business license permits provision for our company to transmit money, provide foreign currency exchange, or any other money related instruments. It complies with Anti Money Laundering (AML) legislation and rules. MSBs are governed by their local regulators and governmental bodies to ensure AML rules are not breached.

MISSION & VISION

GLOBALYTICS
TECH RESEARCH

MISSION

“Using Predictive Analytics To Become The Vanguard Of Progress”

Our mission is to utilize predictive analytics technology to detect new discoveries and explore new boundaries. We aim to be the fabric of the world sentiment and forefront of trends. We use this intelligence to make informed decisions and achieve desired results.

VISION

“Change the World With Intelligent Data.”

We envision a future where people can make more well informed and accurate decisions with complete trust in data assisted by the processing power and technological prowess of our STAR System. When intelligent decisions happen at the right moment, we can flourish together as the world advances.

GLOBALYTICS
TECH RESEARCH

[BIG DATA]

AND ITS IMPACT ON THE WORLD

GLOBALYTICS
TECH RESEARCH

“

With big data analytics, organizations can better predict future outcomes and gain unrivalled competitive advantages”

– *Bill Gates*

DATA IS POWER

GLOBALYTICS
TECH RESEARCH

Imagine having the ability to see everything, everywhere. All the time. Every interaction with customers. Every financial transaction, anywhere in the world.

Imagine being able to process all that information instantly, and use the insight to improve customer service, build products faster, or spot fraud.

***Now imagine if that data could help you see into the future,** giving you the ability to react to events before they happen. To prevent accidents. To predict and stop financial failures.*

And imagine if analytics could open up totally new revenue streams for you.

BIG DATA ANALYTICS

GLOBALYTICS
TECH RESEARCH

Big Data is the large amount of structured and unstructured raw data sets collected from various sources that needs to be computationally analyzed to **gain insights, value** and **meaning**. The study of these data that leads to **more informed decision-making** is called analytics.

From tracking diseases to electing the most powerful official of the free world. Big Data Analytics is indeed everywhere. Data analytics has evolved itself to become the brain of making the world's biggest decisions.

IMPORTANCE OF DATA ANALYTICS

GLOBALYTICS
TECH RESEARCH

COVID-19

Big Data can be used to track the spread of disease much faster.

By using data from security camera footage, credit card records and even GPS data from cars and mobile phones to trace the movement of individuals with COVID-19.

CORONAVIRUS COVID-19

NOVEL VIRUS
Symtoms include a cough, a high temperature, shortness of breath

PREVENTION
Wash hands often for at least 20 seconds. Cover your mouth when you sneeze or cough. Avoid touching your face.

IMPORTANCE OF DATA ANALYTICS

GLOBALYTICS
TECH RESEARCH

U.S Presidential Election

Data analytics helps the election campaign to understand the voters better and hence adapt to their sentiments.

Analytics done on a large scale can even sway presidential election results.

IMPORTANCE OF DATA ANALYTICS

GLOBALYTICS
TECH RESEARCH

Social Media

Influence consumer decisions in many ways. Almost every social media platform works on some algorithm to serve you ads on your feeds. Analytics is used to understand what your interests are and advertisements are served to the user based on these identified interests.

DATA ANALYTICS in ORGANIZATIONS

GLOBALYTICS
TECH RESEARCH

ACCELERATING BUSINESSES

Major corporates around the world, like Apple, collect as much data as possible and analyze it in order to find the solutions and trends that will help the business to

- Reduce costs
- Streamline operations
- Develop new products and services
- Make smarter decisions.

GLOBALYTICS
TECH RESEARCH

Our core business is data analytics, and Artificial Intelligence (AI) technologies is our forte. We foresee data as the most important commodity of the future, and the way to be at the forefront of this technological revolution, is to harness our expertise in these 2 fields, and perfect our Predictive Analytics solutions.

– Tom Morrison, CEO GRSE

TECHNOLOGICAL BREAKTHROUGH

PREDICTIVE ANALYTICS SYSTEM

GLOBALYTICS
TECH RESEARCH

OUR PROPRIETARY TECHNOLOGY

GLOBALYTICS
TECH RESEARCH

STAR SYSTEM

GRSE envisioned creating a software technology that is able to predict financial trends with data and artificial intelligence.

Since the inception of the idea, GRSE has dedicated a vast amount of resources to developing this proprietary project – **STAR System**.

Our experts in data analytics, machine learning, financial & investment analysis and predictive modelling, are focusing on achieving a platform with high accuracy rate in future market trends, economical shifts and investment analysis.

One of the major key factors in establishing higher accuracy, is to collect as much relevant data as possible.

GLOBALYTICS
TECH RESEARCH

STAR SYSTEM

Software for

Tracking

Analysis and

Risk Assessment

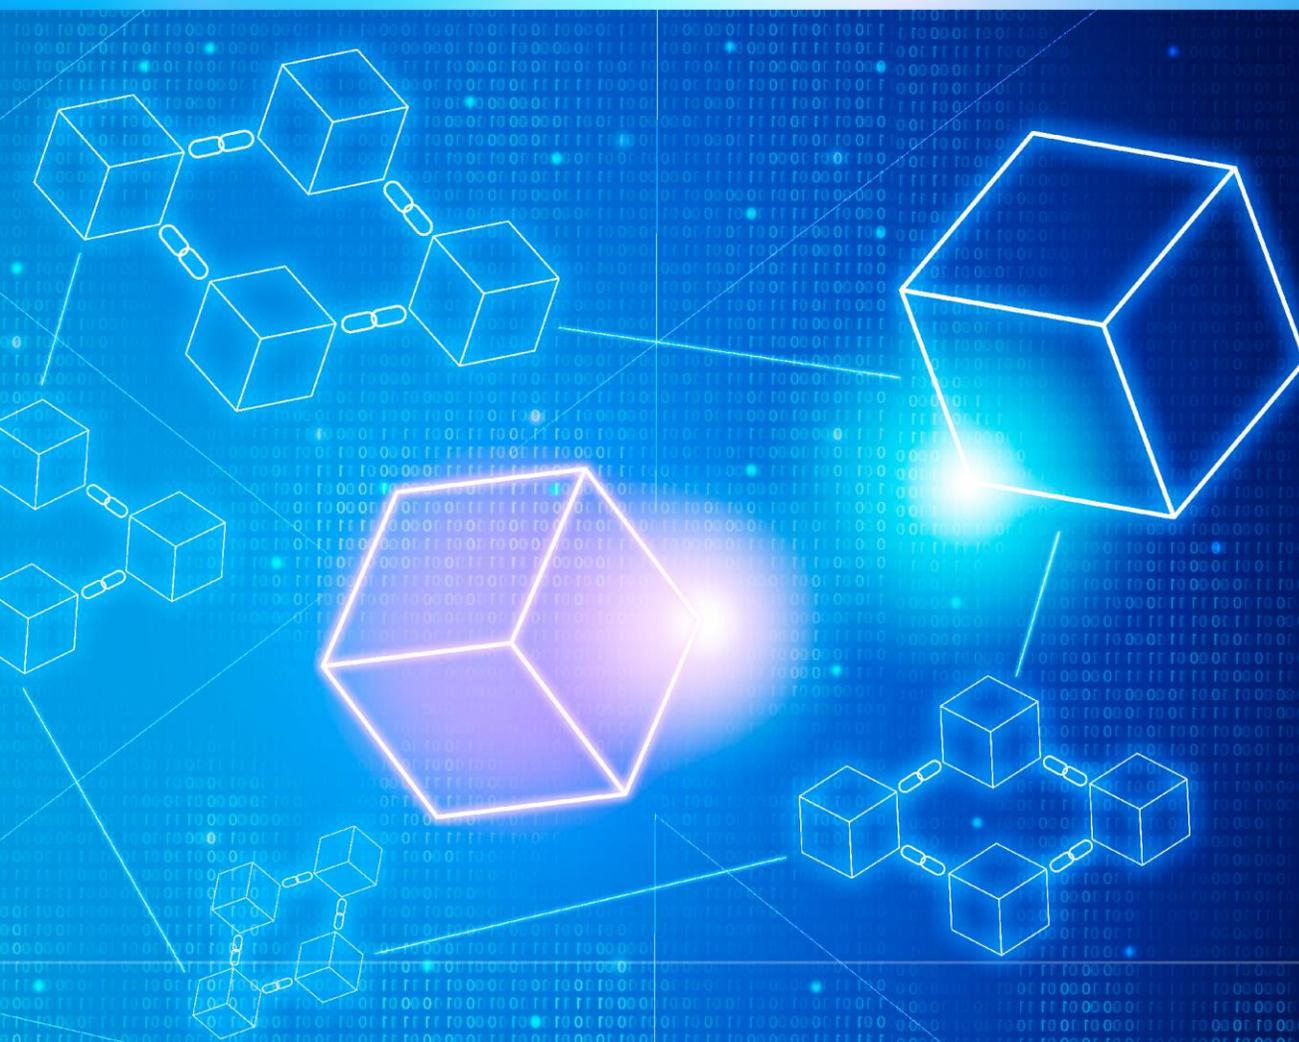

STAR System is a technological software for Tracking, Analysis and Risk Assessment

The system uses artificial intelligence, and data analytics to predict accurate future outcomes.

CORE OF STAR SYSTEM

GLOBALYTICS
TECH RESEARCH

S·T·A·R

The core of STAR System includes advanced artificial intelligence applications of **analytics**, **computational skills**, various types of **machine learning**, **self learning**, and **deep learning** to acquire a robust data intelligent system.

MACHINE LEARNING

GLOBALYTICS
TECH RESEARCH

A key ingredient for STAR System's accuracy is its ability to automatically learn and improve from experience without being explicitly programmed.

The AI application, **machine learning**, focuses on the development of computer programs that can access data and learn for themselves without human intervention.

Success of the STAR System is dependent on following key factors:

- ***Robust infrastructure***
- ***Collecting suitable datasets***
- ***Using right algorithms***

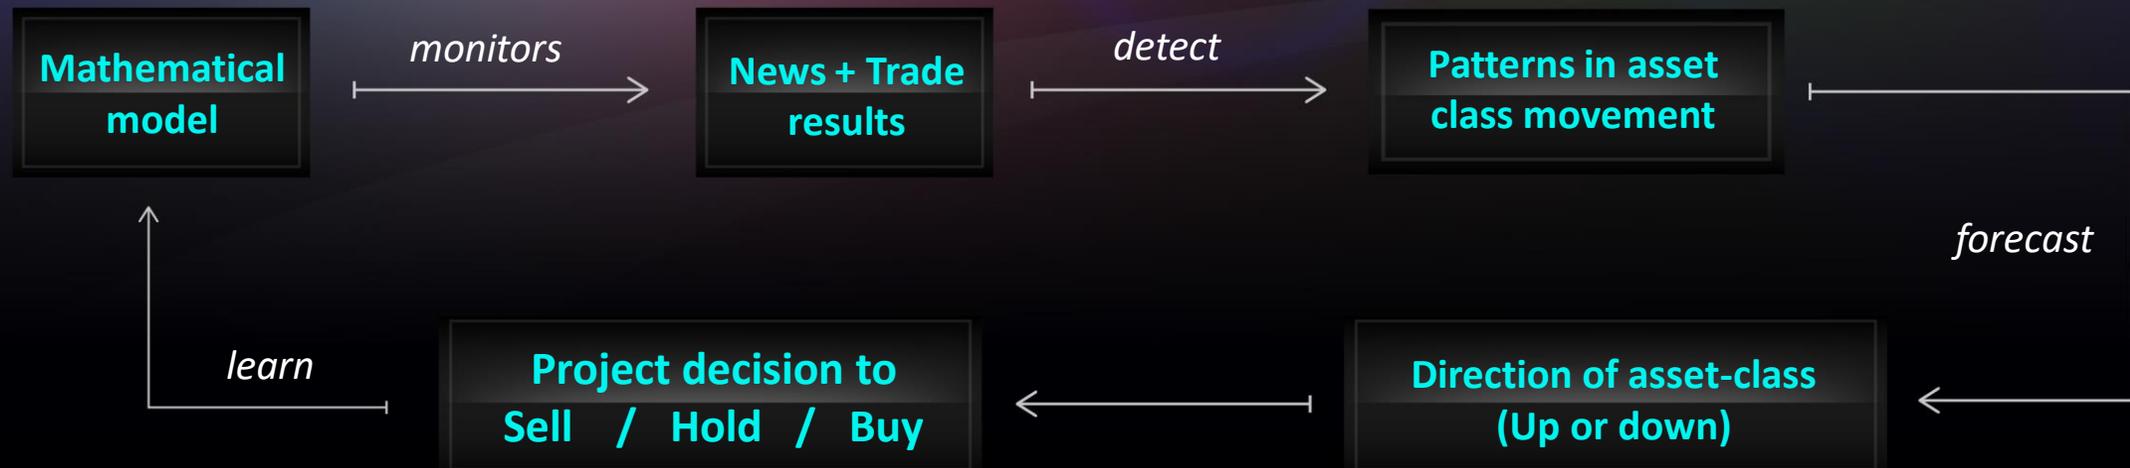

Our aim is to feed as much meaningful data as possible to the STAR System so that it able to recognize patterns in vast assortments of data to **predict more accurate outcomes**.

MACHINE LEARNING & STAR SYSTEM

GLOBALYTICS
TECH RESEARCH

Similar to algorithmic trading, STAR System uses machine learning to help make better trading decisions.

With machine learning, STAR System is able to provide our team of analysts and traders the trading edge over the market average.

How does the STAR System perform Predictive Analytics?

CORE INGREDIENTS FOR PREDICTIVE ANALYTICS

Predictive Modelling

The foundation of all prediction models is based on the analysis and clever categorization of big data. Upon obtaining big data from reliable channel and sources, we deploy artificial intelligence (AI) to verify the authenticity and validity of the data. Simultaneously, our artificial intelligence (AI) can operate autonomously while in midst of acquiring and analyzing these data, so as to improve accuracy. At present, the artificial intelligence (AI) provided by our STAR system in GTR has provided calculations that have reached 5 times the speed of AlphaGo.

Perfecting The Algorithm

By hinging on our expertise, we are continuously perfecting our algorithms to strengthen the STAR System especially in the field of finance. In recent years, we have used the STAR System to successfully predict certain outcomes in the stock market, and several warning signals of cryptocurrency dips and spiraling trends.

GLOBALYTICS
TECH RESEARCH

DISTRIBUTION CHANNELS

BUSINESS TO CONSUMER

GLOBALYTICS TECH RESEARCH (GTR)

GLOBALYTICS
TECH RESEARCH

Globalytics Research System Enterprise (GRSE) has perfected analytics solutions for large businesses across the world using our proprietary STAR System.

Over the years, we have been developing methods for STAR System to be best used in the retail sector and we have finally reached the stage where we are ready to share the technological prowess of the STAR System with the world.

```

GLOBALYTICS TECH RESEARCH (GTR) SERVICES

GLOBALYTICS
TECH RESEARCH

GTR is a Software-as-a-Service (SAAS) technology solutions provider. We develop our trading software and applications, STAR products, based on our STAR System for retail use globally.

GTR was developed as a **business to consumer (B2C)** platform to market our STAR System and its retail use through our SAAS Program to consumers around the world. It is also the main distribution channel for STAR products.

Trading Advisory Products

As a leading analytics company, SAAS is key to our strategy for market penetration into the consumer sector and also to create brand awareness for our **STAR PRODUCTS**.

STAR - Trading Advisory Tools

GLOBALYTICS
TECH RESEARCH

For client who wish to harness the accuracy and and power of our STAR System, GTR has developed trading advisory tools made for client to experience from their own desktop and mobile platforms. Clients can now use these tools for their day-to-day trading with world-class trading features to aid them.

We have created these products from the essence of our proprietary STAR System to enhance your trading aptitude and to guide you into becoming a proficient trader. These innovative products capitalizes on our 3 core functions – **Big Data**, **Artificial Intelligence**, and **Technical Expertise**.

Our Goal For Our SAAS Products Is To Solve Complicated Problems With Simple Solutions!

STAR - Benefits of Trading Advisory Tools

GLOBALYTICS
TECH RESEARCH

- Harness the power and experience the capabilities of our STAR System.
- Have advisory tools to trade themselves like a proficient trader.
- Witness and take advantage of STAR System's accuracy.
- Full customizable options to suit your needs.
- Convenience of using it from your desktops and mobile devices

STAR LITE - Full Suite Trading Advisory Program

GLOBALYTICS
TECH RESEARCH

Traders can now experience our momentous collaboration with **MetaQuotes** (MT4) and take advantage of our innovative STAR System technology with MT4's renown trading platform.

STAR LITE is built from our core predictive analytics capabilities and analytical inputs that provides accurate and dynamic advisory trading features incorporated into the MT4 trading platform for client to conveniently execute trades by themselves.

Our commitment is to help our clients to become proficient traders and our proprietary technology is what truly sets us apart from other trading software available in the market.

STAR MAX - Mobile Application Trading Advisor

GLOBALYTICS
TECH RESEARCH

A mobile application with a seamless experience for our clients on the go that require access to real-time data, advanced charting and information on assets.

GTR clients can now have access to professional, customizable trading data to suit their trading needs from the palm of their hands.

STAR MAX Features

GLOBALYTICS
